FOR IMMEDIATE RELEASE

Shell Shock Technologies Launches NAS³ .380 ACP Cases

.380 ACP NAS³ Cases Are Now Available for Sale on Shell Shock's Website

Westport, Conn. (August 2022) – [Shell Shock Technologies](http://www.shellshocktech.com), LLC., an early-stage technology and manufacturing company focused on developing innovative case technologies for the ammunition industry, is pleased to announce that .380 ACP NAS³ cases are now available on its website.

.380 ACP NAS³ cases are now available for sale on Shell Shock's website. Offering similar weight savings and performance advantages to Shell Shock's 9mm NAS³ cases, .380 ACP NAS³ cases can be purchased in packs of 500, 1,000, 1,500, 3,000, or 10,000 cases. Larger quantities can be purchased by contacting Shell Shock Technologies directly at info@shellshocktech.com.

.380 ACP NAS³ cases can be reloaded using S3 Reload dies, available from [S3 Reload.com](http://S3Reload.com)

About Shell Shock Technologies NAS³ Cases:

NAS³ cases are 50 percent lighter than brass cases, offer greater lubricity, and will not abrade, clog, foul, wear-out, or damage breach and ejector mechanisms. The cases offer greater corrosion resistance, tensile strength (2x stronger), and elasticity than brass.

NAS³ cases will not split, chip, crack or grow (stretch) and are fully reloadable (using S3 Reload dies) and can be reloaded many more times than brass cases. NAS³ cases can be picked up with a magnet. The head can be colored for branding purposes and easy load identification.

NAS³ is "Best in Class" for maintaining consistent velocity between rounds. In an independent test performed by H.P. White Laboratory (a major munitions testing facility), 9mm rounds fired using NAS³ cases achieved a velocity standard deviation of 0.093 FPS (124-grain FMJ bullet, 4.2 grains Titegroup powder, 10 rounds, extreme variation 3fps).
